## **DETAILED ACTION**

### ***Response to Amendment***

1. The present Office action is made in response to the Election and the amendment filed on 9/27/2005. It is noted that in the amendment of 9/27/05, applicant has canceled claims 1-12 and 34, and added a new set of claims, i.e., claims 35-44, into the application.

### ***Election/Restrictions***

2. In the Election filed on 9/27/05, applicant has elected with traverse the invention of Group II-A-4, claim 16. However, applicant has added a new set of claims 35-44. The newly-added claims 35-44 into the application has resulted that a further restriction on the basis of species as follows:

3. Claims 16 and 35 are generic to a plurality of disclosed patentably distinct species comprising:

Species (I) directs to a (pair of) electrochemical cell mounted on the microscope for generating electrical power and supplying electrical power to a light emitter. This species is shown in figure 5 and claimed in present claims 37-39; and

Species (II) directs to at least to semiconductor devices for generating light of different wavelengths and light mixer in the form of a light guide. This species is shown in figure 3 and claimed in the present claims 40-42.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. Note: Claims 36 and 43-44 do not recite the feature of power cells or semiconductor devices and thus these claims will be examined with the generic claims 16 and 35 and the claims of the elected species. Claims 13-15 and 17-33 are non-elected claims with traverse by the applicant as provided in the election of 9/27/05.

5. A telephone call was made to Steven M. duBois on 12/09/2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
